**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I chose a competitive provider because they had much better technical support than the major provider and because I like supporting a local business.

Broadband is critical to the work I do every day from my home computer. I am very active in the county government arena and need to be agile in getting information and responding quickly. I coordinate with a large number of people and broadband is also necessary for that work.

I use a local provider for my telephone as well as my internet service and I like it very much.
